-  Improve your English and communication in an **international environment**.
-  Meet **new people** and broaden your horizons.
-  Get **1 ECTS credit**.

 **Registration for the international summer school is now open!**

Don't miss this unique opportunity to be part of a sustainable future!

Co-funded by
the European Union

From **September 22 to 26, 2025**, the Faculty of European Studies and Regional Development of **the Slovak University of Agriculture in Nitra**, in cooperation with universities from Poland, Italy, Spain, and Ukraine, is organizing an **international summer school** titled "**Food Production and Environmental Impact on Agricultural Land.**"

The summer school is intended for **master's level (second cycle)** students and offers a combination of theoretical and practical teaching led by professors from the following universities:

- **Slovak University of Agriculture in Nitra, Slovakia**
- **Poznań University of Life Sciences, Poland**
- **Università Roma Tre, Italy**
- **Universidad de Almería, Spain**
- **Taras Shevchenko National University of Kyiv, Ukraine**

The summer school is organized within the framework of the international educational project KA220-HED – Cooperation Partnerships in Higher Education titled "**EU Partnership to Protect Agricultural Land in the Face of Climate and Environmental Challenges. Caring for Future Generations – ProLand.**"

Participation in the summer school is free of charge.

REGISTRATION
